

# Important Application Advice

Mondeo dual mass flywheel replacement					
Application	CC	BHP	Type	Engine	Date
Ford Mondeo Mk.3 - 2.0 TDDI & TDCI	1998	115	All	D6BA, HJBA, HJBB, HJBC	00 - 9/02

This clutch kit and flywheel have been specifically designed and manufactured to fit the application listed above.  
This application has flywheel **timing lugs** which are **11mm** wide.

*Later models of this vehicle, and models with different BHP are available under a different part number.  
The late model vehicles have **timing lugs** which are only **5mm** wide. They are not interchangeable.*

Engine Output can be found on a label under the bonnet  
(85kW/115hp or 96kW/130hp) or by VRM lookup.
